the shame of a great free nation being made an unwilling partner in an odious policy might yet be averted.

The speech, which was throughout received with enthusiastic cheers, is considered by far the most telling utterance on the subject yet made.

There will be published to-morrow, by John Murray, a sixteen-page pamphlet, in the form of a letter, from the Rt. Hon. W. F. Gladstone, dated Cannes, March 18, to the Duke of Westminster. It furnishes remarkable evidence of Mr. Gladstone's mental activity in the political situation. The letter begins by saying: "My ambilion is for rest and peace alone, but every grain of sand is part of the seashore, and, connected, as I have been, for nearly half a century with the Eastern question, I feel that inclination does not suffice to justify silence."

LONDON, March 18.—The Secretary of the Byron Society has received a telegram from Athens, saying that the Sultan, desirin to make peace, has offered to withdraw the Turkish garrison from Crete and to assign the Island to King George to be occupied and administrated by Greece, without a recognition of the imperial suserainty of the Sultan taking the form of an annual tribute. The telegram says that these terms are entirely agreeable to the Hellenic Cabinet, as well as to the Cretan Mohammedans, who prefer annexation to autonomy. It is said that the Powers put a sudden stop to these negotiations.

to the rear end of a freight train that is now speeding over the Missouri. Kansas & Texas road, in the Lone Star State, are Conductor E. F. Billingsley and his bride of twenty-four hours. She was Miss Anna Randall, but Wednesday afternoon she changed her name to Billingsley, with the assistance of Judge Haughton.

Her husband is a freight conductor on the M., K. & T., and was recently promoted to a passenger train, but the change does not go into effect until May 4. Mr. Billingsley overcame Miss Randall's desire to postpone the ceremony until that time, and Wednesday afternoon they became one. The company placed a brand new caboose at the groom's disposal, which was attached to the rear end of his train. The happy couple occupied this and when the freight pulled out, congratulations were as numerous and sincere and the recipients as happy as if their honeymoon were to be spent in a Pullman. They will live in St. Louis.

JEFFERSON CITY, Me., March 18 .- The Senate resumed discussion of an appropria-tion bill this morning. The bill of expense turned in by the doctors who examined Duestrow, amounting to \$109, was cut out, Duestrow, amounting to \$109, was cut out, it being charged by the Senators that the Governor had no right to appoint such commission.

The Senate voted to allow \$1,000 for additional clerical help in the office of the State Superintendent of Insurance.

After the Senate had arisen from Committee of the Whole a substitute to the Goodykoontz amendment was adopted, which provides that no State money shall be allowed to any asylum, except those in charge of 'regular' physicians, commonly called allopaths. The effect of the substitute is the same as the amendment originally introduced by Senator Goodykoontz when the Senate was in Committee of the Whole, except that it is somewhat milder in construction. This action is intended to antagonise the Governor in the appointment of a homeopathic physician as Superintenent of the Fulton Asylum.

HORSESHOERS' BILL KILLED.

Knocked Out by the House After a Sharp Debate. JEFFERSON, CITY, Mo., March 18.—The bill to create a State Board of Examining

rear.

A sharp rap of the Speaker's gavel abruptly terminated this sort of levity.

Representative Tubbs made a vigorous speech in which he characterized the bill as class legislation.

Representatives Smith, Sponord and Piper spoke in favor of the bill.

Representative Hopkins offered an amendment to strike out all after the enacting clause. On this proposition the vote stood 65 for the amendment and 36 against it. Thus the bill was killed. This bill was indorsed by the Horseshoers' Union and by many prominent horse owners in St. Louis and Kansas City.

Beer Bill's Chances.

The bill providing for letting the clerical work of the Legislature by contract was defeated in the House this morning.

The bill providing for training and licensing teachers was killed in the House this morning.

THE SENATE.

THE SENATE.

The sign of way exclusively to Senate bills will be put on the calendar, and Senate bills will be pushed to the limit. This is in the nature of returning good for evil, since the Senate bills any consideration, and has held up most of the important measures in committee. An exception to this rule is the bill by White-cotton, creating a license board for St. Louis, which had been placed on the calendar before the rule about Senate bills had been adopted. This measure is considered an important one.

Grain Inspection Bill.

The Railroad Commissioners fought the bill on the ground that it would not be in the interest of the shippers. The history of the measure extends over most of the session.

LAMOREAUX DOESN'T PROPOSE TO GO DOWN ALONE.

IT'S A FIGHT FOR MILLIONS.

Bonner and La Follette Will Contest the Secretary's Power to Nullify Lamoreaux's Order.

pecial to the Post-Dispatch. WASHINGTON, D. C., March 18.—The asantness of things for ex-Secretary Interior Francis, and possibly for l cessor, Mr. Bliss, growing out of t Lamoreaux scandal, is developing at a gal lop. So far as the disobedience of an orde constitutes a scandal the attorneys for the McKee scrip claimants are about to show that the scandal was not confined in the Interior Department to the office of the Land Commissioner. There are millions of money involved in the fight, with nearly all the Chicago millionaires and the Secretaries of the Interior on one side, and Judge Lamor the Interior on one side, and Judge Laun-oreaux and the McKee scrip claimants on HE WAS SHOT

The first step in the new fight was taken yesterday, notwithstanding the fact that it has been the understanding that the case should come up de novo as desired by Sec retary Bliss on the old lines of contention retary Bliss on the old lines of contention. The attorneys for Bonner and La Foliette have challenged the right or power of Secretary Francis or his successor to deal with the decision of Judge Lamoreaux as they have done. They have filed their grounds for the challenge and have made copies of some extremely interesting documents under the hand of Secretary Francis which they will use in perhaps a sensational manner in due time.

They claim that Francis acted outside of his proper province, and that his zeal to help his friend make a fat fee led him to do some things decidedly irregular.

Proof of these claims has been secured from the records, it is alleged, and Commissioner Lamoreaux proposes to prove to the world that David R. Francis was in the mud as deep as he was in the mire.

## The Wonderful Carlsbad Springs.

An Eminent Physician Reads a Paper of Great Interest Before the International "fledical" Congress.

Dr. A. L. Toboldt, of the University of Pennsylvania, read a paper stating that out of thirty cases treated with Carlsbad Water and the Carlsbad Sprudel Salt, for chronic constipation, hypo-chondria; disease of the liver and kidneys, jaundice, adiposis, diabetes, dropsy from valvular heart disease, dyspepsia, catarrhal in-flammation of the stomach, ulcer of the stomach or spleen, children with marasmus, gout, rheumatism of the joints, gravel, etc., twenty-six were entirely cured, three much improved, and one not treated long enough. Average time of treatment, four weeks. In all of these cases no particular diet was prescribed. The doctor claims, in conclusion of his paper, that the Carlsbad Mineral Water, as exported by the city of Carlsbad, being the natural product, is much to be preferred where the quantity of water is no objection, particularly in diseases of the stomach Whenever the quantity of water cannot be taken, the with marasmus, gout, rheumatism of water cannot be taken, the Carlsbad Sprudel Salt (genuine), will answer equally as well. He states that the effect of the water and the Carlsbad Sprudel Salt is to be relied upon, independently of any adjuncts of treatment, such as diet and exercise, whether taken hot or cold, claiming even an advantage when taken cold, as it advantage when taken cold, as it acts more decidedly purgative, and that he has given cold the preference, only using the water hot when a less purgative action is desired. The dose of the water employed was two tumblerfuls before breakfast and one or two during the day. The dose of Salt is ing the day. The dose of Salt is a teaspoonful twice a day dis-solved in a tumblerful of water. solved in a tumblerful of water. Whenever a stronger action is desired the genuine Carlsbad Sprudel Salt should be used in conjunction with the Carlsbad Water. The genuine article is bottled under the supervision of the city of Carlsbad, and has the seal of the City and the signature of "Eisner & Mendelson Co.," sole agents for the U. S., on the neck of every bottle. All others are worthless imitations. The genuine is never sold in bulk. Dr. Toboldt's lecture, with table of cases treated, will be mailed to any address upon application to the agents of the Carlsbad Spring. Eisner & Mendelson Co., New York.

successful Sullivan's recovery will be complete.

Sullivan's case is a sad one. Six years ago July 13 his eldest boy, Willie, then 15 years old, tried to kill his father and mother. The boy was possessed with a frenzy to do mutder. He has never been able to account for his act. Mr. Sullivan was shot once. His wife was wounded in two places. Her injuries were slight and she quickly recovered. The ball that struck Mr. Sullivan entered below the left shoulder, glanced down and lodged in the spine. The effect was a complete cessation of sensation from the middle of the torso down. It was impossible to locate the builet, although the doctors were certain it had lodged in the spine.

For six years Mr. Sullivan has sat in an arm-chair, helpless, unable to stand, practically dead from the waist down. Meanwhile his son was tried and sentenced, and has served five years in the pentientiary.

Some time ago medical students from Creal Springs who are attending St. Louis medical colleges persuaded Dr. H. M. Whitacre, Mr. Sullivan's family physician, to have the ball located by X rays. The doctor made arrangements with the St. Louis Electric Supply Co. of Sil Market street and brought his patient to St. Louis.

Mr. Sullivan was carried to the operating room Thursday morning. Messrs. Morgan P. Rice of the General Electrical Co. of New York and E. Ruebel, president of the local company, handled the apparatus. A five-inch spark from a high frequency current was used. The Crookes tube was of the lakest device, with reservoir chambers for regulating the vacuum.

One minute after the current was turned on Dr. Whitacre applied the fluoroscope to Sullivan's body and saw the builet distinctly. It was embedded in the vertebrae on the right side, opposite the sixth rib.

After the hall had been located Mr. Ruebel wrapped Mrs. Sullivan's showl about a frame containing a sensitized plate and slipped it under her husband's back. The middle of the Crookes tube was placed over the spot where the ball was located and the X rays were poured t

## BERRY WINS.

Tanner Has His Way in Illinois and the Senate Will Unseat Mr. Manifold.

SPRINGFIELD, Ill., March 18.—The Senate devoted its time to-day to the consideration of reports from the Election Committee in the contested election case of Berry against Manifold. Crawford offered what purported to be a majority report, which was supported by the Republicans. It declared that Manifold's name was placed on the Populist ticket illegally, and wa signed by five members of the committee. The substitute was presented by Leeper, and was an exhaustive rehearsal of the and was an exhaustive rehearsal of the law bearing on the case. This report was signed by four Democrats and one Republican, Anothony, Baxter and McCloud, Republicans, refused to sign either report. Speeches in support of the substitute were made by Leeper and Mahoney, and Berry's case was championed by Crawford and Warder. It is the programme to seat Berry late this afternoon. The Republicans have agreed to allow Manifold \$1,000 salary and \$600 for lawyer's fees.

SPRINGFIELD, Ill., March 18.—The bill for the consolidation of the Supreme Cours was passed by the House yesterday by a vote of SI to 64. As originally introduced the bill permanently located the court at Springfield, but, on second reading. Ottawa was substituted by an extremely close vote, several members from Southers Illinois voting for the Ottawa amendment in the belief that that would kill consolidation entirely, and thus save the court to Mount Vernon. Testerday the members from the south end of the State were arrayed solidly against the bill, but they were outnumbered. The obvious remedy is to increase the width between the levees.

By rebuilding the levees further out, extending the space between them from 100 to 200 feet; or where there is but one levee, building it from 200 to 600 feet further out, the river at flood would have hundreds of cubic feet more room to run in for each lineal foot of current.

Considerations of the value of the land ought not to weigh anything in deciding such a question. The expense of rebuilding the levees further out and the cost of the land thus abandoned to the river is as nothing to the damage done by a single great flood.

It is safe to say that there was more interest taken in the result of yesterday's brutal exhibition all over this country and in Europe than in the result of our last Presidential election. Certainly the crowds in front of the Post-Dispatch were greater than on any of the trying days of last November, when a questio of vast moment to the future of the coun-

It is a reproach to our civilization that any American State should legalize an exhibition in which one man, by striking another a brutal blow over the heart, can stop its beats and suspend the vital functions long enough for an "official" timeplece to count ten seconds. How the Bubber Trust Works.

From the New York Journal.

In Bristol 2,200 human beings thrown upon the world. In Woomsocket and Miliville, R. I., 2,500 people in distress, 1,200 out of work. Since the Trust acquired the plants in these places the Miliville operatives have averaged only one-third time, on reduced wages. In Woomsocket the factory has been shut down nearly half the time, and wages have also been reduced. Aug. 13, 1808, the two big factories closed, ostensibly on account of the agitation for bimetallism, and several thousands of persons were left destitute. thousands of persons were left destitute.

Aug. 21, 1896, for the same ostensible reason, the factory in New Haven was closed and 1,300 persons were thrown out of work.

In February of this year 500 persons were In February of this year 500 persons were deprived of employment by the closing of the factory at Setauket, L. I. At other times three factories, employing 3,000 persons, at New Brunswick, N. J., have been shut down, also one employing 700 persons, at Colchester, Conn.; one employing 500 persons, at Franklin, Mass., and one employing 500 persons, at Militown, N. J. In all these cases wages had been reduced by the Trust so that the average earnings of the employes was not over 75 cents a day, and that only about one-third of the time. Many of these factories have been torn down or sold, their machinery demolished down or sold, their machinery demolished in either case. All these towns have suf-fered severely, and some of them have prac-tically been destroyed.

Meanwhile, rubber shoes that before the

## IRELAND CASES.

Important Lane Decision Involving Many Rich Farming Tracts in Minnesota.

ST. CLOUD, Minn., March 18.-What is perhaps the most important decision ever handed down by a local United States land officer has been given out by Register Bruener and Receiver MacDonald in what is known as the Ireland cases, covering lands in Big Stone and Traves Counties. Iands in Big Stone and Traves Counties.

The decision involves what is known as the indemnity limits of the main line of the St. Paul, Minnespolis and Manitos Railroad Company, and the tracts are among the richest of Minnesota farming lands, some 2,000 acres being involved.

Archbishop John Ireland of St. Paul, as far back as 1878, made contracts with the railroad company and a year later he contracted to place settlers on these vacant lands. In 1831 he contracted to buy, either for himself or his settlers, any or all of the land included in the districts, not to for himself or his settlers, any or all of the land included in the districts, not to exceed 60,000 acres. The Geneval Land Office has previously held that the lands were not properly indomnity lands and the question at issue here was who was entitled to the privilege of the act of 187, which allows these who purchased in good faith of the company to purchase the land from the Government it was claimed that Ireland was only the sgont and not the original purchaser.

The effect of the decision is to rule out the homestead claimants of lands claimed by Ireland, deny the opportunity of Ireland to purchase the lands for which he had given contracts prior to March 2, 183, the date of his contract of purchase, and to so allow his proof, and to permit him to purchase all lands claimed by him which he had not contracted to other parties prior to that date. The case will be appealed.

## **GLOOM OYER** CORBETT'S HOME.

"HE'S THE SAME OLD JIM."

EX-CHAMPION BEARS UP WELL

Fitssimmons Are Due in San

Francisco Friday.

SAN FRANCISCO., Cal., March 18.—The gloom which befell the Corbett home at 818 Hayes street yesterday afternoon still hung over the house to-day. The ex-champion's father, as is well known, is a livery stable teeper here, and the family is a large one. All the sisters and cousins and aunts of the Corbett tribe gathered in Jim's old home yesterday to hear the news of the fight received over a special wire. At first they were hopeful and full of expectations. Afterward no group of mourners was as melancholy as they.

In an upper room were gathered Jim's wife, mother and sisters, Mrs. Charles King, Mrs. John Boyd, Miss Corbett, Miss Kate Corbett and Miss Histher Corbett, and Jim's sister-in-law, Mrs. Harry Corbett. About 1 o'clock there was not one of them all who had dry eyes. Their faces were swellen with weeping, and Mrs. Jim, who is pretty, was almost unrecognizable. Not only had their athletic hero fallen, but the fortunes of the house of Corbett as well, for it is said that Corbett pers put his little on his son, and jost even the livery stable which has afforded the family living for many years.

It was hard to see any member of the family. They had never prepared for this contingency, and the catastrophe fell on them as lightning from a clear sky. It had never occurred to them that Jim could lose. Mrs. Jim Corbett, who has been taken into the family circle and is known as "Verd, said through a food of tears:

"He is the same old Jim to me. Nothing can change that."

"If Jim would not say what she thought of Jim's promise. She is on record as raying that she knew. Jim would win, because he promised her he would.

Jim's mother had loving explanations to shield the boy from any crificisms, after a way that mothers have.

"If Jim would have trained longer, it would have been all right," she said. "He thought he was in fine condition, but he had a very hard man to fight, and I think his theatrical life unfitted him for this work. While we felt very badly over it, w

Good Pile on Fitz's Victory.

ANY FRANCISCO, Cal., March it—At a conservative estimate, \$135,000 was bet on the three fights in the local poel-rooms. The money was won principally by the small bettors, the talent, as a rule, being on the wrong side. The larger part of the money wagers was placed at Corbett's pool-rooms. Among the big winners was Mai. Frank McLaughin, who is said to have cleared something life \$30,000. He has been an arrience be came to America, and has on several occasions furnished backing for the red-headed fighter.

The second big gost winner in San Francisco is Adolph Spreckels. It is reported that he won over \$12,000. Riley Grannan made a good clean up, as he want to Carson especially to back Flussimmons and Hawkins, but Id Furer, the horseman missed it by going to the fight. He backed Corbett while his colt. Rey Del Tears, practically unbacked, was at the Oakiani track at \$2.50.

St. Patrick's Day Stake Won by Melita, Beating White Diamond Easily.

With yesterday's coursing the season at the Fair Grounds comes to an end. The past year has not been one of much financial gain to the management, but the efforts they have put forth so make popular the sport will surely be a source of profit to them next season.

The St. Patrick's Day Stake was won by Melita, Mr. E. J. Brown's black bitch, who had to beat the great White Diamond to carry off first honors. White Diamond however, is out of condition, being very fat and wind-shy. King of the Hills, one of the celebrated Mulcaster string, won second money. He ran two hard, drilling courses and was drawn in consequence, as Melita was comparatively fresh.

The South Side Coursing Club may run until summer, but the matter has not yet reached a decision, and the events will probably be governed by weather prospects.

They Want the Association to Dissolve but a Quorum Cannot Be Got Together.

solely because the members take so little interest in the society that it will be impossible to get a quorum.

Secretary D. R. Whitmore is authority for this statement.

Mr. Whitmore was quoted by a morning paper as indignantly denying the statement of the association's condition in Wednesday's Post-Dispatch.

The greater par, of the information published in the Post-Dispatch came direct from Mr. Whitmore. Thursday he said:

"Of course swery statement made by the Post-Dispatch was true, but if didn't do the society any good to publish it. It is true that many of the younger members are is favor of winding up the affairs of the association and would like to see this done at the April meeting. It is also true that the number of annual assessments has laccreased every year, When the association started, twenty-two-years ago, the average annual assessments for each member amounted to about 8 s year. Now it is hearly \$18.

"Though there are undoubtedly members

amounted to about \$3 a year. Now it is nearly \$18.

'Though there are undoubtedly members who would like to see the society disadived. I hardly think it will go out of existence at the coming annual meeting. Of the \$3 members about 200 live outside of \$1. Louis. The charter provides that the affairs of the society cannot be wound up except by the yole of two-thirds of the members. No proxies are recognised. As a rule there are not more than 100 members at the annual meetings. It will be readily seen from this that the necessary two-thirds your cannot be find.

that the Becessary two-thirds vote cannot be find.

"It is a fact that the membership has been dropping off steadily. Nearly ninety members have withdrawn during the year. Each withdrawal decreases the benefits paid in case of death. Though it is not impossible that continued withdrawals may ultimately cause the dissolution of the society, it cannot be formally disbanded so long as it is impossible to get a quorum at the meetings.

"The dissolution of the society would be a great hardship to the older members who have kept up their dues and paid their assessments for more than twenty years. The

DOUBLE DELEGATIONS GOOD.

Trial of the Cases Involving the Rights of Politicians to Bun in Bogus Delegations.

Three election cases were brought up in Court Room No. 2 at 2 p. m. Wednesday, Judges Flitcraft, Klein and Spencer sit-

ting together.

Two of the cases were the mandamus proceedings brought to have the "Regular Brown delegations" in the Eighteenth and Nineteenth wards placed upon the ballots to be voted at the Democratic primaries

in those wards.

The third case, brought in Judge Spen-cer's court, and, by agreement, tried with the others, was an Injunction proceeding.

the Issues to be decided in the cases on trial. The first point, he said, was to decide what the first point, he said, was to decide what the first point had been still be said that in the return in the case before Judge Klein the statement that the delegation in question was a fraudulent delegation was an afterthought on the part of the attorney for the Election Commissioners. He said he had a letter from the Chairman of the Board of Election Commissioners which stated as a reason for rejecting the petition that the number of signers was insufficient. The allegation that the delegation was fraudulent did not appear in the Chairman's written reason for rejecting the delegation. Successful the delegation cases brought by James J. Butler against the Commissioners, asking that the Haspison delegation be kept off the ballot, Mr. Allen made the point that Mr. Butler had no standing in court. He had no interest at stake that could be affected and had no recourse in supply.

June Flitcraft saked if a sitisen had not right to act in a case which concerned public office and the election therefor.

The demutrer of Mr. Aften in the injunction case was overruled and the case went to trial then upon the same issues as the other two cases which were, in the main, what authority of a quasi-judicial nature has the Board of Election Commissioners to pensa upon the elisibility of signers to petitions or proposed members of delegations. Judge Klain held that if the Effection Commissioners did have the quasi judicial authority if was sher first duty to hear both sides of any case, which it was reverted by the plainting, was not done.

Mr. Alien argued that these persons always had semebady as the Election Commissioners office of their later-cats, and they make that the commissioners were about to investigate the signers.

Judge Klein held that the commissioners

ests, and they make Knew that the Commissioners were about to investigate the
signers.

Judge Klein held that the commissioners
should have given formal netice to the
parties in interest of what was intended to
be done. Unless Mr. Allen could show that
this notice had been given, Judge Klein said
the case would have to go to the issue as to
the qualifications of the signers.

Mr. Allen held that the Commissioners
under the law had the right to take precautions against tickets with fraudulent
captions intended to mislead the voters.

Mr. Smith said there was nothing in the
present law to probleit any misleading caption, but that the danger was neutralized
by other provisions of the law.

Judge Klein again assented that as far as
he could see the issue was upon the qualifcation of the signers. He asked Mr. Allen
if he held that the board had a right to
determine a question affecting certain persons without giving those persons a hearing.

Mr. Allen and he did, If the Board of
Election Commissioners found upon looking over their books for example, that none
of the signers to a pedition were registered
voters, or that not a sufficient number of
them were qualified voters, they had a right
to reject the bestiton without severing notice
upon anybody.

Judge Klein then asked if the parties in

the prayer of the petitioner.

The First Ward case was then taken up, and Mr. Rowe said he would undertake to show that beside the nineteen signiers conceded by the Commissioners there was at least one who was a qualified voter and who had lived in the same place for two years.

Daniel Reedy was then put upon the stand and testified that he had lived at 1850 Clark avenue, over Morrissey's saloon, for two years continuously; was a qualified voter of the legal age, etc.

Mr. Allen asked him several embarrassing questions as to how often he had slept out and where his clothes were.

George J. Sieber was then called to substantiate Mr. Reedy's testimony.

NOW WANTS HIS MONEY.

Having Had His Life the State Sues the Arthur Duestrow Estate,

william J. Stone, representing the Attorney-General of the State, filed a suit Wednesday afternoon in the Circuit Court to recover from the estate of Arthur Duestrow \$7,638, the amount of costs in the criminal prosecution which resulted in Duestrow's hanging at Union, Mo.

The suit is brought under a provision of the statutes that the cost of a felony prosecution shall fall upon the person convicted. This action is a novelty in the Circuit Courts, and there is no case recorded here like it. In the majority of felony cases where convictions have resulted the defendants seldom left estates worth suing for.

In this case the State says there is now in the custody of the Union Trust Co. a sum amounting to about \$5,000, which constitutes the bulk of Arthur Duestrow's estate. Against this amount there are a number of indements and claims, the mailn ones being

form of judgments regularly issued previous to the filing of this last suit, so that the question of priority of claims will be an increasing and difficult one to settle. "Floor-Shine" Modern Floor Color
